

Dentaco®

scan`sprayluer **BLUE**

Blue Matting Spray for Scanning surfaces with changeable cannulas

- The classical Scanning Spray with a slightly moist consistency of the spray coating
- Creates an excellent, fine and homogenous reflection-absorbing layer
- Dries in approx. 20 sec. – especially with soft air drying
- Good removal from all surfaces with the help of the water syringe
- For intraoral use
- 50 changeable luer cannulas (85 mm/3.35 in long) for good access to the whole oral cavity
- Hygienic – one cannula for each patient
- Blue color for good contrast
- Lemon flavor
- 50 ml enough for approx. 200 applications

Spraydose 50 ml + 3 Kanülen

Spraydose 50 ml + 25 Kanülen
