

# Dentaco®

## *scan`spraystone*

**The „2in1 Spray“: Superfine scanning and bubble-free casting.**

### **First Function: Superfine scanning spray for the dental lab**

- Our special spray nozzle provides a superfine spray cloud
- Dries immediately within seconds after spraying
- Very economic and yielding: Minimum 400 applications possible

### **Second Function: Casting without bubbles**

- A small cloud of the fine spray powder removes the surface tension of the silicone
- No troublesome bubble formation when casting silicone impressions
- Alcohol sprays and other expensive, slowly drying “problem solvers” are not necessary anymore
- Immediate sight control possible
- The precision of the impression remains unchanged
- The casting can be continued without any break

Spray Can (200 ml)

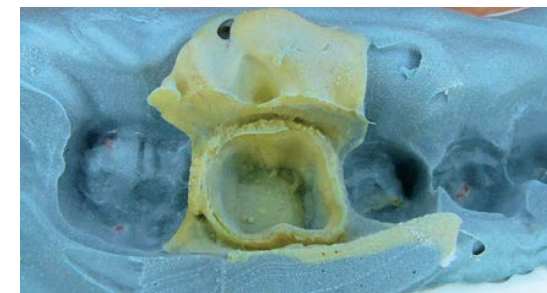

Art.-Nr. 500 600
